

PATRIOT PREMIUM THREADING SERVICES

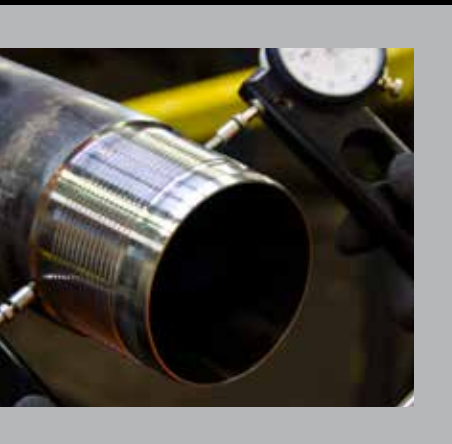

*A joint venture with
U. S. Steel Tubular Products*

TUBULAR PRODUCTS & SERVICES FOR THE PERMIAN BASIN

ERVICES N

Patriot Premium Threading Services (PPTS) is a joint venture between Butch Gilliam Enterprises and U. S. Steel Tubular Products. Operating from a state-of-the-art facility in Midland, PPTS provides quality connections, repairs, accessories and rig site services to customers across the Permian Basin – all backed by best-in-class inside sales, technical sales, customer service and responsiveness.

As a U. S. Steel Tubular Products licensee, PPTS currently offers full length threading of USS-LIBERTY FJM™ flush joint premium connections as well as repair and accessory machining of USS-CDC™, USS-CDC HTQ™ and USS-PATRIOT TC™ connections.

CAPABILITIES

PPTS features full length threading capabilities from 2-3/8" to 11-3/4" pipe OD sizes. To ensure shorter lead times and superior customer service, the facility maintains a broad inventory at all times.

CNC Premium Threading Lines

- Line No. 1, 2-3/8" to 7" OD capable
- Line No. 2, 3-1/2" to 11-3/4" OD capable

Accessory and Specialty Services

- CNC accessory lathe, 2-3/8" to 7" capable
- Two manual lathes, 1-1/2" to 12-3/4" capable
- Bucking services with torque-turn capabilities

Pre-Production Line

- Swaging line, 2-3/8" to 11-3/4" capable
- Stress reliever, 2-3/8" to 11-3/4" capable

RIG SITE SERVICES

PPTS offers 24/7/365 technical support for customers throughout the Permian Basin. Trained and experienced professionals located in Midland deliver support at the rig site or pipe yards.

Rig Site Services personnel possess the expertise, experience and equipment to help ensure the integrity of the product that is run downhole. An extensive knowledge of the full technical specifications and performance data for each product, as well as direct access to engineering and technical staff, provide peace of mind for customers.

Services include:

- Visual inspection of connections
- Confirmation that correct running procedures are followed
- Tools and training to perform field repairs

WE FIRMLY BELIEVE THE SUCCESS
OF OUR BUSINESS WILL BE BASED
ON THE LEVEL OF QUALITY AND SERVICE
WE PROVIDE OUR CUSTOMERS.
