USS-EAGLE SFH™

Integral, Semi-Flush Metal-to-Metal Seal Connection

The USS-EAGLE SFH™ premium connection is a new generation of casing connection that is designed for horizontal, clearance critical well designs requiring high performance semi-flush connections with maximum torque capacity.

This connection's critical design objective is to minimize cost, while preserving critical performance parameters. USS-EAGLE SFH™ provides customers a turnkey solution for casing, connections, accessories and on-location rig site services, all with one supplier and guaranteed product compatibility.
